

# VFC Program

## Eligibility Screening Record

Initial Screening Date	Child's Date of Birth	Is your facility a Federally Qualified Health Center (FQHC)? <input type="checkbox"/> Yes <input type="checkbox"/> No
Child's Last Name	Child's First Name	Child's Middle Initial
Parent's Last Name	Parent's First Name	Parent's Middle Initial
Primary Provider's Last Name	Primary Provider's First Name	Primary Provider's Middle Initial

Does this patient qualify for immunization through the VFC program because he/she (check only one box):

- a) Yes, is enrolled in Medicaid
- b) Yes, does not have health insurance
- c) Yes, is an American Indian or Alaska Native
- d) Yes, is underinsured (has health insurance that does not pay for vaccinations)\*
- f) No, this child does not qualify for immunizations through the VFC program because he/she does not meet the eligibility criteria

Date (MM/DD/YYYY)	Is enrolled in Medicaid	Does not have insurance	Is a Native American or Alaska Native	Is under-insured (has insurance that does not pay for immunizations)	Is an unaccompanied minor without insurance information	Does not meet eligibility criteria

\*To be supported with VFC purchased vaccine, underinsured children must be vaccinated through an FQHC. A record of all children 18 years of age or younger who receive immunizations must be kept in the health care provider's office. The record may be completed by the parent, guardian, individual of record or by the health care provider. VFC eligibility screening must take place with each immunization visit to ensure the child's eligibility status has not changed. While verification of responses is not required, it is necessary to retain this or a similar record for each child receiving vaccine.

Note: Medicaid providers are not required to keep separate records of VFC eligibility screening for their beneficiaries. Maintaining of Medicaid-specific documentation in a patient's chart, whether electronically or on paper, is considered adequate documentation of VFC eligibility.
