

Moderna Wastage Instructions

Moderna Bivalent 6+ can be administered as either .25mL for ages 6-11 (10 per vial) or .5mL (5 per vial) for ages 12+. For purposes of reporting waste, Moderna Bivalent 6+ vials are considered to contain 5 doses per vial. Below are instructions for tracking and accounting for wasted doses.

Key Points:

**Moderna
Bivalent**

- You will not report waste if 5 or more doses are administered.
- Example: 7 doses administered: 4 doses (0.25mL), 3 doses (0.5mL)
- Report: Waste = 0, Admin = 5, discard remaining volume

1. Please use our dose tracking sheets to keep track of the number of doses drawn.
2. Discard the remaining volume when the beyond use time (12 hrs. after puncture) passes.
3. Report any doses not administered as wastage using our [Wastage Job Aid](#).
